Baldwin Aviation is committed to enhancing the safety culture of flight organizations by providing ongoing, cost-effective and time saving safety management and support services programs.

Bottom Line

We know how busy flight organizations are, so we developed and certified our safety programs so that you can focus on what you do best ... fly. Baldwin is neither a consulting nor management company. Instead, we mentor your flight organization and do the hard work for you while answering to your aviation department - reducing stress, and saving you time & money.

IS-BAO Certification

The only company of its kind to have earned IS-BAO registration for its Safety Management program, Baldwin helps you adopt IS-BAO best practices and then, if you so choose, earn IS-BAO certification under the Baldwin umbrella within just 4 to 5 months.

In response to increasing regulatory mandates and requirements, Baldwin developed a series of safety programs to address the needs of the Fixed Wing and Rotor Wing communities.

Safety & Compliance Program

Baldwin's comprehensive Fixed Wing safety management program is supported by key insurance leaders and includes:

- Safety Management System (SMS)
- Standards
- Safety Management Manual
- Operations Manuals
- Emergency Response Plan
- Company Message Board
- E-Forms (Flight Risk; Waivers; Technical Risk; Ground Support)
- Safety Reports
- Document Bulletin Board
- Operational Alerts
- JetDesk® provides 24/7 support
- Safety Barometer® monitors safety environment
- Support Services

RotorSMS®

Recently added to the United States Forest Service's list of recommended resources.

Based on our proven Fixed Wing SMS program, Baldwin specially designed the core safety program to fit the specific needs of the helicopter community. Featuring similar tools as our Safety & Compliance program, RotorSMS® provides heli-operators an easy, cost-effective way to implement a safety management program.

SMSplus®

For those Fixed Wing and Rotor Wing organizations not needing all of the features of our full subscription program.

If you wish to enhance your current safety program, SMSplus® may be the program for you. Providing cutting-edge tools needed to run and monitor a safe, efficient flight organization, you can be up and running in less than a week.

safetysherpa®

Our mentoring program supports new or evolving flight organizations.

Baldwin Aviation emulates a major flight organization by providing resources to our clients on an as-needed basis such as operations support, administrative, fiscal, maintenance, aircraft transactions, etc. Our philosophy is to work with existing personnel and "teach them to fish rather than to simply provide them with a single fish dinner."

Support Services Program

Save 5% – 60% on operational necessities.

Through a network of alliances, Baldwin clients enjoy significant savings on vital needs such as fuel, weather, training and scheduling.
