

# AFFORDABLE FLIGHT-SAFETY

## RECORDER(USAF Tested):

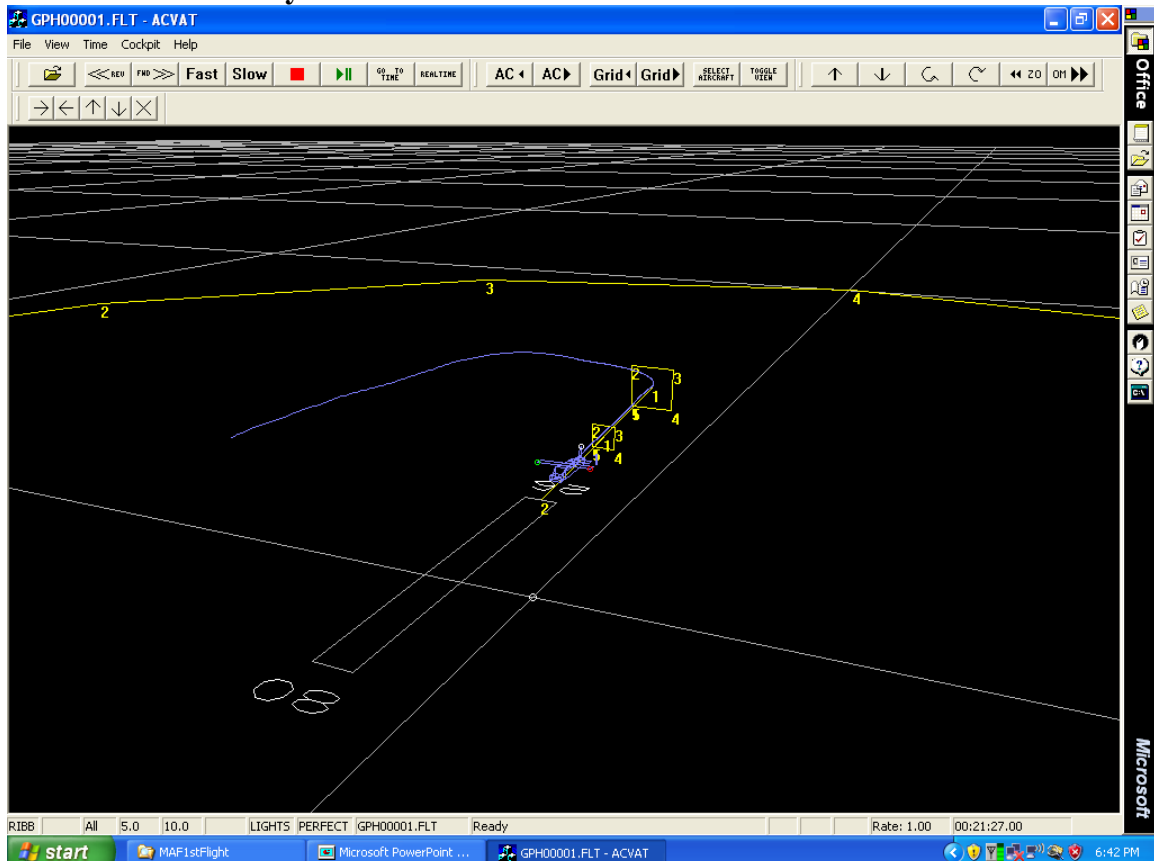

- Weight: 1-lb/installs in standard 2.25" avionics slot
- 8000-hr "hardened" memory/5-oz
- Dual-powered(9-38 volts/250 mil-amp)
- Easily installed/FAA-337
- Low-cost < \$3000

## UHL-FLIGHT-SAFETY SOFTWARE(USAF Tested):

- In-flight limits quantified
- Approach and landing quantified
- 3-D Graphic visualization with avionics panel instruments
- Load-factor histogram
- 20 seconds to process 1-hr flight on PC

## USES:

- Flight-safety monitoring analysis/FOQA
- Accident reconstruction
- Instructor-graded enhanced flight training
- X-country flight reconstruction
- Formation flying(32-aircraft)
- Load-factor analysis
